GUERNSEY BREEDERS TO MEET

Plymouth, Ind., June 11.—The annual meeting of the Indiana Guernsey Breeders' association will be held in South Bend the third week in August, according to E. C. Bird, county agent. Bird is secretary and treasurer of the committee on arrangements for the meeting. A dairy show will probably be held.

CATTLE POISONED

Seymour, Ind., June 11.—Tannic acid poisoning caused cattle of J. A. Green, Freetown, near here, to become sick, A. A. Hansen, Purdue university authority, announced. Oak leaves may contain as high as 10 per cent of tannic acid poisoning, Hansen said, however, is it easily cured if caught during the early stages by feeding as little as three pounds of hay to each head per day. If allowed to continue without change of diet, cattle may die, he said.

Prohibition Commissioner Haynes might turn his attention to stopping this wet weather.

High Cost of Experience

Experience is a good teacher, but her charges are often ruinous. In matters of importance it pays to take advantage of the knowledge gained by others through their years of experience. In no field is this more essential than in the care of your motor car.

We have had experience and can save you time and money on your motor car repairs.

TIPS ON SHOE REPAIRING

Do It Better

Did you ever think of that When I am working on a pair of shoes I am always striving to "DO IT BETTER" than somebody else would do it. That is the reason my work stands out head and shoulders above the average cobbling. That is why people think of FLETCHER'S SHOE REPAIR SHOP first when they have a particular job of repairing to be done. A trial will convince you.

Special attention given to mail order repairing.

COUNTER REVOLT GETS UNDER WAY

Continued From Page One
ernment since October 1919, ruling with an iron hand and even dictating to youthful King Boris, escaped the revolutionaries who seized the reins Saturday, imprisoning practically the entire ministry. Stamboulsky fled to Salvovita, where he gathered a few hundred peasants and prepared for a counter-revolt. Detachments of new government troops went to Salvaita in an attempt to capture the ex-premier to-day, but he is reported once more to have escaped with a handful of his followers. The peasants who supported Stamboulsky still are in the majority in Bulgaria and a counter revolution on their part is regarded in Paris as certain of success, provided it is well organized.

THOMAS MEIGHAN

IN

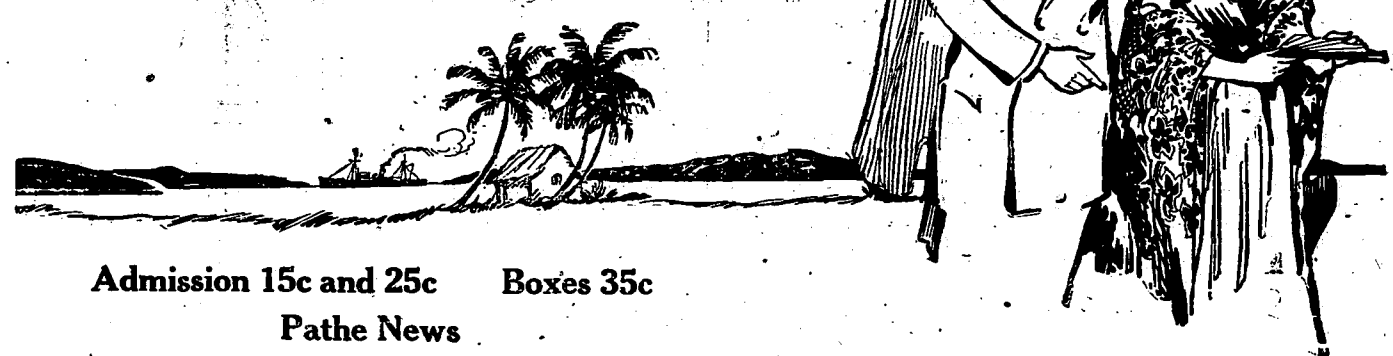

A Paramount Picture

Here's a PICTURE!

One that honestly deserves to be spelled in capital letters. One that Rex Beach can honestly say is a brilliant picturization of his world-famous novel. One that gives Thomas Meighan the best role he's had in a long time.

With lovely Lili Lee as the inspiration for the hero to make good.

INVESTIGATION STAFF IS TAKING TRAINING

To Increase The Efficiency of Arson Department of State Fire Marshall's Office

HAS BENEFICIAL RESULTS

Indianapolis, Ind., June 9—Members of the investigative staff of the state fire marshal's office are taking special training to better fit themselves for their work and increase the efficiency of the arson department. The instruction is informal but the grading of papers and the regular examinations is far from informal. The plan of instructing every investigator in the special phases of his work was inaugurated about a year ago by Newman T. Miller, state fire marshal, and has been closely adhered to since with beneficial results.

Study of the state laws particularly applying to arson and fire prevention, works on criminology, various aspects of investigation, the meaning of motive and intent in the law and similar subjects are covered. The fire marshal assigns certain books and other texts for study once a month and every thirty days an examination is held to determine what the investigators have learned and how they are progressing. Every man on the staff has shown a new interest in his work and actually enjoys the study, taking pride in improving himself for his regular duties.

A direct result of the training and study is shown in the growing accuracy of reports and the broadening of the work of the investigators, with a consequent tightening grip on law violators.

And Here's the Modesty Bumper!

They call this contrivance a "modesty bumper." Three padded spikes fastened in a belt worn by the lady prevent too close an embrace from her dancing partner. The idea originated in Paris and is demonstrated in this photo by Miss Dee Thompson and O. F. Sterling, of Chicago.

BIBLE THOUGHT
—FOR TODAY—
Bible thoughts memorized will prove a
priceless heritage in after years.

WAIT PATIENTLY.—Wait on
the Lord; be of good courage, and
He shall strengthen thine heart;
wait, I say, on the Lord.—Psalm
27: 14.

Beauty in The Country
The average person who would
never countenance throwing waste
paper or anything that would detract
from the cleanliness of their home
town or city, will thoughtlessly litter
up the countryside, never realizing
that farmers take as much pride in
their premises as do people living
in villages, towns and cities.
Motorists are the worst offenders.
Those who carry their lunch with
them on weekend trips, or a Sunday
pleasure drive, will stop by the
road-side and eat their meal and
leave debris scattered about. Though

it may not be near a home, wind
may carry waste paper and other
matter into the farmer's front yard
that he has spent many hours in
beautifying.
The Motorists League For Coun-
tryside Preservation has been organ-
ized for this very purpose, to keep
camp sites and highways free from
papers and other litter. An earnest
and energetic effort is being made to
interest motor vacationists in the
movement and it is reported to be
meeting with enthusiastic co-opera-
tion.
Hundreds of letters, and pledge
cards, containing promises to "clean
up" after stops along the roadsides,
are being received daily, the league
reports. The response is not confined
to men in public life but covers also
the so-called private citizen who
"tunes up" his flivver for week-end
outings during the hot summer
months.
William G. Shepherd made a per-
tinent query when he mailed in his
pledge recently. "Where'll I throw
it?" Mr. Shepherd wants to know.
At the suggestion of officials of
the League, the editors of motor, the
national magazine of motoring, have
undertaken to solve this problem in
the current issue of the magazine.
Of course, many municipally oper-
ated camp sites are equipped with
receptacles for the garbage and litter
of campers, but many tourists prefer
to make their stops at spots re-
moved from such sites. Motor sug-
gests, in this connection, that gar-
ages be equipped with barrels and
that motorists convey their after-
the-picnic litter to garages. Invari-
ably, cars visit garages as they tour
about and refuse can be gathered up
and taken there without difficulty,
and the garage owner is certain to
get a return in the way of sales of
fuel, etc.
It is suggested also that some of
the litter may be buried or burned
but care should be exercised not to
disfigure the landscape when the for-
mer is done and to guard against fire
spreading in the latter case.
Motorists interested in the move-
ment are urged to write the League
for information as to how they can
help.

While the youngsters nowa-

**White Elephant Sale Is
Conducted At Alexandria**

Alexandria, Ind., June 11.—The
sacred animal of Siam has been at
large in Alexandria.
The Shrine of the noble animal
was in a salesroom formerly oc-
cupied by Heler and Benton, jew-
elers, where all of the white ele-
phants extant in this city were
brought so soon as recognized.
As members of the Department
club, sponsoring the round-up re-
marked, "There are probably more
white elephants around your house
than you are willing to admit. What
a splendid opportunity this sale
gives you to discard those Xmas
presents received from your distant

next year, after disposing of the

Mrs. W. A. Wyllie, 824 N. Arthur
St., Rushville, gave the following
statement September 20, 1915: "My
trouble began with a clutching dig-
ging pain directly across my kidneys
and over my hips. The pain was
terrible and I had to be given pain-
ceasing tablets by the doctor to re-
lieve it. I was unable to do my
housework for a week and was in
misery. Others of my family had
taken Doan's Kidney Pills with ex-
cellent results so I began using
them. I did not have to use a whole
box before the pain let up and soon
disappeared."
On November 4, 1920, Mrs. Wyllie

inion of Doan's Kidney Pills. I hav-
en't had to use them lately as my
cure has been a lasting one."

Cuts Tire Prices
10%
Effective June 11
We announce a 10% reduction in tires
and tubes effective June 11th. The low-
ered cost of crude rubber and the special
Firestone manufacturing and distribution
advantages make this possible.
Firestone factories are organized on a
basis of large volume and effective pro-
duction. Costs are down but quality is
at its peak. Stockholder workmen are
daily building many thousands of Gum-
Dipped Cords—the best tire Firestone
ever produced and, we believe, the leader
on the market today.
Firestone Cords took the first four
places and eight of the ten money posi-
tions in the Indianapolis Sweepstakes,
May 30th, without a single tire failure.
Firestone Gum-Dipped Cords have
set new standards in mileage, traction,
comfort and safety. Car-owners have
expressed their approval of the extra

SHANK'S TEAM IN A VICTORY HERE

Indianapolis Mayor and His "Me and Sarah" Aggregation, Springs Surprise and Walks Away

SCORE WAS 12 TO 5

Local Team Was Unsteady Behind Behnke, and Baloon Went Up—Shank Makes a Talk

Lew Shank, mayor of Indianapolis scored another victory, but this time it happened to be his first victory in the baseball field, when his team of heavy hitters took advantage of the weakness of several spots in the Rushville line-up, and pounded out a victory, 12 to 5.

The "Me and Sarah" aggregation was accompanied by several rooters from Indianapolis, including both the principal followers, Mayor and Mrs. Shank. The Indianapolis team has been unfortunate that year in winning games, and yesterday the Mayor brought along almost a new line-up, and they proved to be good hitters and fielders.

Rushville, which had held a perfect record so far this year, got in the lead in the middle of the game, 5 to 4, but soon "Me and Sarah" was ahead 6 to 5, and when the ninth inning rolled around, the local crew went up in the air, and everything happened.

One of the greatest weak points on Rushville's team appeared to be the unsteady pitching of W. Behnke, who had heretofore showed up well, but it is understood that he pitched a game Saturday at Indianapolis, and two games in a row is doing the Rushville team an injustice.

The manager of the visiting team apologized for the failure to bring the Police band along, and stated that the city council had objected so strenuously that they decided to leave the band at home. Mayor Shank and his wife occupied side line seats with their team, and the mayor made a few remarks upon his arrival at the ball park.

Before the end of the game he appeared before the different parts of the grand stand and extended Rushville and Rush county people an invitation to attend one of his free theater entertainments at one of the municipal parks. The Mayor was given the "glad hand" all along the grand stand.

Score by inning:
"Me and Sarah" 202 000 305 12-14-2

HANNING WITH FARRELL

Places on Team Filled

By HENRY L. FARRELL (United Press Sports Editor)

New York, June 11.—With just about a year remaining in which the candidates for the 1924 American Olympic team must be judged and selected, form shown in the early college meets this spring indicates that many of the places on the team are already filled.

While much can be done during the fall and winter season to throw the star athletes off form, it is certain that all the college athletes who think they have a chance to go to Paris will work only to keep themselves in shape and to improve their form.

Among the sprinters it is almost certain that Charley Paddock, Alfred LeConey, "Boots" Lever, Fred Lovejoy, Bob McAllister and Irwin will be members of the team.

Woodring, of Syracuse; Koppisch, of Columbia; Saxby, of California, and Taylor, of Princeton, are prominent candidates for the quarter-mile.

Helfrich and Enoch of Penn state; Campbell, of Yale; Marsters and Connolly, of Georgetown, are headliners for the half-mile, and several of them are likely milers, along with

Higgins, of Columbia; Kirby, of Cornell; Booth, of Johns Hopkins; McLane, Pennsylvania, and Douglas of Yale.

Tootell, of Bowdoin and Merchant of California, are sure among the hammer throwers, and Neufeld, of California; Hills and Thomson, of Princeton, are almost cinched in the weight.

Angier, of Illinois; Storrs, of Yale and Neufeld, of California, are leaders in the javelin and Leroy Brown, of Dartmouth; Poor, of Kansas, and Needs, of Pennsylvania, are as good as "in" among the high jumpers.

Great talent has been developed in the broad jump in the past three years. Gourdin, the world's record holder, is available and he, no doubt, will be on the team along with Hubbard, of Michigan; Comins of Yale and Rose of Pennsylvania.

Norris, of California, and Owens, of Pennsylvania, are leading candidates for the pole vault, and the discus throwers are almost sure to include Neufeld, California; Weatherdon, New York University; Platt, of Denver, and McMahon of Marquette.

Practically all of these collegians will be newcomers to Olympic competition, and they will probably make the trip with many of the veterans who were in Antwerp in 1920.

THEATRES MOVIES

"Woman's Sacrifice"—Mystic

For "A Woman's Sacrifice," which will be shown at the Mystic Theatre today and Tuesday, many scenes were filmed in a canyon near Port Henry in the Adirondacks.

These Mountains are ideal picture mountains because they are not so high as the western ranges and can be caught in a medium long shot. The western mountains, while they tower to far greater heights, have to be shot from long ranges and lose all grandeur and all inspiring qualities when flashed upon the screen.

The Grand Canyon of California, the Royal Gorge and many other of nature's wonders are useless when it comes to taking mountain pictures. The location selected for the scenes of "A Woman's Sacrifice" was the bed of a canyon in a deep gorge several hundred feet below the trail. A water course ran at the bottom of it and the ice had frozen lightly. The day selected for Corinne to appear in the canyon eight inches of snow covered the ice and the fair star, a bit active went through the ice into the current, which at that point was about six feet deep. She was speedily rescued by Webster Campbell, her director, and Curtis Cooksey, her leading man. Other members of the company built a fire and started coffee boiling. The star was dried by the fire, as she refused to return to the hotel, and after drinking a hot cup of coffee worked the rest of the day.

"A Woman's Sacrifice" is a story of a girl who makes a great sacrifice to save her family honor, and is aided in putting an end to her enemies by a courageous youth who has in his blood the spirit of chivalry which was so important in the days of old when knights were bold.

Two Days At Princess

California has served as the setting for the inception of many a new fad since it became the so-called garden spot for the making of motion pictures. But not until recently did the residents in the vicinity of Los Angeles realize the thrills that could be experienced on roller skates. It took a motion picture, "The Nth Commandment," which comes to the Princess Theatre today and Tuesday, to popularize roller skating on the Coast, and now it has become one of that section's greatest indoor sports.

When Director Frank Borzage started to make "The Nth Commandment," Fannie Hurst's story, for the Cosmopolitan Corp., he had smooth sailing until he began work on the filming of a roller skating scene in the picture. The scene was finally made but not until after

ter Mr. Borzage had met a bigger obstacle than he has ever experienced in the making of a photoplay. The first step towards the making of the scene, that of constructing a roller skating rink in the studio, was easily negotiated. But when Mr. Borzage issued a call for the necessary extras, he received a jolt. Few Californians had the least conception of how to roller skate, and the majority of them had never seen a pair of skates.

It was then that several hundred Californians began to feel the experience of a new thrill. A. F. Rolfe, of East Lake Park, an expert skater was engaged to instruct several hundred men and women in the intricacies of the pastime. After several lessons they became proficient in the art and were qualified to appear in the scene. The skating fever has spread and threatens to become the most popular indoor sport on the Coast.

AUTO DRIVER IS SOUGHT

Unknown Man Fatally Injures Alexandria Garage Owner

Alexandria, June 11.—Police of Alexandria are searching today for an unknown automobile driver who fatally injured Glen Miller, local garage owner, and then sped away without making any effort to aid the injured man.

Miller died soon after being brought to a local hospital. His skull was fractured and his face was crushed.

Miller was knocked from the running board of his car by another machine coming up behind him and thrown in the path of a car coming from the opposite direction. The driver of the latter car was unable to stop his machine. He stepped on the gas after he had run over Miller, witnesses declared.

The Score Board

Erin Ward singled with the bases filled and the score tied in the last of the 9th, enabling the Yanks to beat the Indians 8 to 7.

Zachary was touched for 12 hits but kept them scattered and Washington defeated St. Louis 5 to 3. Luque won his seventh victory in eight starts for Cincinnati when he held the Phillies to five hits and won 2 to 1.

Vic Aldridge shut out the Boston Braves and the Cubs won 3 to 0.

THIRD POLITICAL PARTY FORECAST

Parley P. Christensen, Farmer-Labor Candidate in Last Election Makes A Prediction

(By United Press)
Chicago, June 11.—A third political party in the 1924 primary and election was forecast here today by Parley P. Christensen, farmer-labor presidential candidate in last election.

"The farmer-labor movement is being felt all over the country, and I fail to see how the 'orthodox' Republicans and Democrats are going to merge their policies with it," he said.

The farmer-labor convention will meet in Chicago July 3 to prepare for the nomination of candidates next year, it was announced.

Thirty thousand invitations have been issued to farmers, co-operative organizations, labor and other liberal groups.

The convention will aim to serve as an expression for a third party it was said.

Christensen predicted farm and industrial problems will be the big issues in 1924. He praised the stand of Henry Ford and Wm. Randolph Hearst as the only two men not dominated by Wall street.

SHELBY BECOMES REAL BUSY BURG

Radio Going Full Blast, Burlesque Show Doing Two A Day And Dry Sleuths On Job

REFORM BEING ACCOMPLISHED

While Night Life Is Dead, Town Folks Swarm To Rodeo—Attorney General Leaves

By HENRY L. FARRELL (U. P. Staff Correspondent)

(Copyright, 1923 by United Press)
Shelby, Mont., June 11.—With Tommy Gibbons working, a radio going full blast, a burlesque show doing two a day, and a squad of dry sleuths snooping around, Shelby today became a real busy burg.

The whole town is enthrallled by everything and everybody but the dry agents, and the word was passed that the skids are being prepared for them.

Several night raids were made on the outskirts and a few bottles of beer confiscated. Nothing stronger was found, although a narrow escape is reported.

But a reform is being accomplished. The night life places are undergoing a change. The "Days of '49" has changed its blaring billboard sign to read "The Days of 1923" and "The Chicken Shack" has painted out its sign, becoming nameless for the time being. Business became so bad at "The Black Cat" that admission now is charged for a view of what was. The "Blue Mouse" has been turned into a hot dog stand.

While the night life is dead, the town folks swarm to the rodeo where hard-boiled cow punchers gather around the wire and razz the horses and riders.

"Feed 'em oats" the punchers yelled when a timid grey came out and refused to buck.

"Leggo, leggo" they shouted the next minute when a puncher on a sorrel "grabbed leather" when he was able to take a nose dive to the dirt. When a puncher "grabs leather" he forfeits a five spot that goes to the unthrown rider.

Attorney General Rankin left last night after two days of inspection. He intimated that the "inspecting" would be continued. Several state agents are here and customers have to knock before the doors are opened at most of the resorts.

Strangers are beginning to fill the town. Hotels are crowded and some tent dormitories are doing business.

Gibbons started his training Sunday and will continue this afternoon with a short workout. The challenger who is to meet Jask Dempsey July 4 never looked better. He went so fast that he had to be called off by his trainer.

Mike Collins and the promoters are away today making a final round of the northwest distributing tickets. Collins said before leaving that a careful check of the returns showed the sales had now gone beyond \$750,000.

Dizzy Spells Due To Undigested Food

Dizziness and faintness after eating show that your food is not digested and is turning into poison, and gas. Simple buckhorn bark, glycerine, etc., as mixed in Adlerika, expels all poison and gas from BOTH upper and lower bowel. Removes foul, decaying food matter you never thought was in your system which poisoned stomach and made you dizzy and faint. Adlerika is EXCELLENT to guard against appendicitis. COUNCIL MEETING

Rushville, council No. 41 will hold a stated meeting Monday night, following which degree work will be given.

How to throw off that tired, listless feeling

GENERATIONS ago, our forefathers made a "tea" every Spring from certain herbs and barks to purify the blood. Likewise, since 1826, such herbs and barks have been carefully selected, proportioned scientifically and prepared for that great blood purifier—S. S. S. To serve beneficially from one generation to another successfully is a guarantee of its effectiveness. The way we live and eat, we can't step from Winter into Spring with-

out purifying the blood. Unless we choose to suffer depression, feel tired out, and have pimples and boils. It is so easy to give nature a little help, and the best sure way is to start with S. S. S. Stronger and more useful nerves depend on blood-power. S. S. S. will give you that greater endurance, energy, strength, and a more youthful appearance.

Mr. J. M. Mar, Los Angeles, Calif., writes: "Overwork occasioned a complaint which consisted of a tired feeling and pains in the back, that finally exhausted all my strength. A friend advised me to take S. S. S. and after taking only several bottles I was entirely relieved."

Try it yourself. S. S. S. is sold at all good drug stores. The large size is more economical. Get a bottle today!

S.S.S. makes you feel like yourself again

ON A PATERNITY CHARGE

Jacob A. Brown, age 62, was arrested Saturday at his home on a paternity charge, and his case will be heard Saturday in Justice Stech's court. He has been released on \$500 bond. The prosecuting witness in the case is Nellie C. Smith. The parties resided in New Salem.

Ribbon Only

Frequently the only trimming used on summer dresses of light silks or cottons is ribbon. It may be very narrow—metallic, grosgrain, two-toned or figured—or it may be very wide, but it is used to make a dress that would be otherwise plain individually pretty. Hats to match have rows and rows of ribbon.

FASHION TIPS

New turbans that are draped on the head are lovely for automobiling. They are made out of a yard of material that is one-half of a yard wide. The center of the material is gathered into a buckle which is placed over the forehead. The material is then drawn back to the nape of the neck and is then split so as to form two ends which drape about the head in turban fashion and fold under at the sides of the head. If properly adjusted a turban of this sort looks as though it were a hat and not a drape wound about the head.
